

Notice of Workshops to Solicit Comments on Proposed Amendments to Nevada Administrative Code 445B.001-445B.3689: AIR CONTROLS: AIR POLLUTION

The Nevada Division of Environmental Protection (NDEP) is proposing regulations that will update the State's adoption of federal regulations by reference; establish a Class IV permitting program to regulate hazardous air pollutant emissions from area sources; revise certain definitions; and remove unnecessary permit requirements. The following workshops have been scheduled to solicit comments from persons interested in the amendments, which are described below. The workshop agenda is on the reverse side of this announcement.

**Both P2011-01 and P2011-02
will be presented on:**

**JUNE 1, 2011
9:00 AM to 11:30 AM
CARSON CITY
Nevada Dept. of Transportation
1263 S. Stewart St.
Room 302**

**Only P2011-02 will be
presented on:**

**JUNE 3, 2011
10:00 AM to 11:30 AM
LAS VEGAS
Desert Research Institute
755 East Flamingo
Rogers' Auditorium**

Temporary Regulation P2011-01: *Adoption of: Federal Greenhouse Gas (GHG) Requirements; New Source Performance Standards (NSPS); and National Emission Standards for Hazardous Air Pollutants (NESHAP).* The NDEP is proposing to update its adoption of the federal Prevention of Significant Deterioration (PSD) air quality rules (40 CFR 52.21) to include US EPA's GHG permitting requirements. The regulation also revises the State's definitions of "major source" and "regulated air pollutant."

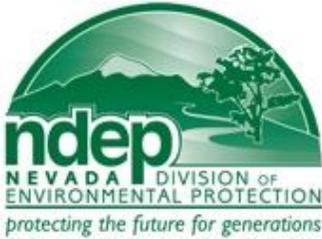

The NDEP is also proposing to update its adoption of applicable NSPS and NESHAP rules that have been promulgated by the US EPA since July 1, 2009.

Temporary Regulation P2011-02: *New Class IV (Area Source) Operating Permit Program; Removal of Unnecessary Provision.* NDEP is proposing 1) to adopt by reference the federal area source NESHAP that are applicable in Nevada, and 2) to establish a new Class IV permitting program to implement these federal requirements. The new Class IV Operating Permit program will assist Nevada businesses in understanding and complying with the recent series of area source rules issued by US EPA. The agency's intent is to keep the program as simple as possible and require no more than what is federally mandated at minimal cost to industry.

This regulation also proposes to remove the unnecessary condition that Class II permits must contain requirements for compliance certification.

The proposed amendments and related materials are available on the NDEP website at: http://ndep.nv.gov/admin/public.htm#air_gp. A copy of materials relating to the proposed regulations may also be obtained at the workshop or from Paul Williams at NDEP, 901 S. Stewart Street, Suite 4001, Carson City, NV 89701; (775) 687-9543; or e-mail to pawilliams@ndep.nv.gov. Members of the public who are disabled and require special accommodations or assistance at the meeting are requested to notify Paul Williams no later than 3 working days before the workshop.

This notice has been posted at the Nevada Division of Environmental Protection offices in Carson City and Las Vegas, at the State Library in Carson City and at County libraries throughout Nevada. 5-11-11

Public Workshop on Proposed Amendments to Nevada's Air Controls: Air Pollution Regulations, NAC 445B.001-445B.3689

June 1, 2011: P2011-01, P2011-02~~~June 3, 2011: P2011-02

AGENDA

1. Welcome, introductions.
2. Approval of agenda; regulation adoption timeline.
3. June 1st only: Presentation of proposed regulation P2011-01. Adoption of the Federal Greenhouse Gas Requirements; New Source Performance Standards; and National Emission Standards for Hazardous Air Pollutants.
4. Public comments and questions on P2011-01.*
5. June 1st and 3rd: Presentation of proposed regulation P2011-02. New Class IV (Area Source) Operating Permit Program. Affected sources include:
 - Aluminum, copper, and other nonferrous foundries
 - Asphalt processing and asphalt roofing manufacturing
 - Chemical manufacturing
 - Chemical preparations industry
 - Chromium emissions from hard and decorative chromium electroplating and anodizing tanks
 - Clay ceramics manufacturing.
 - Dry cleaning facilities, perchloroethylene air emission standard
 - Gasoline dispensing facilities
 - Gasoline distribution bulk terminals, bulk plants, and pipeline facilities
 - Glass manufacturing
 - Industrial, commercial, and institutional boilers
 - Nine metal fabrication and finishing source categories
 - Paints and allied products manufacturing
 - Paint stripping and miscellaneous surface coating operations
 - Plating and polishing operations
 - Secondary nonferrous metals processing
 - Stationary reciprocating internal combustion engines

The NDEP is also proposing to remove the condition that Class II permits must contain requirements for compliance certification.

6. Public comments and questions on P2011-02.*
7. Adjourn

* Public comment may be limited to five minutes per person at the discretion of the chairperson. The chair reserves the right to dispense with repetitive comments on a given topic.

Members of the public who are disabled and require special accommodations or assistance at the Workshop are requested to notify Paul Williams at 901 S. Stewart St., Ste. 4001, Carson City NV 8970; 775-687-9543; or e-mail to pawilliams@ndep.nv.gov, at least 3 days in advance of the Workshop.

The proposed agenda is also posted on the NDEP website at http://ndep.nv.gov/admin/public.htm#air_gp as well at the NDEP offices in Carson City and Las Vegas, at the State Library in Carson City and at County libraries throughout Nevada. 5-11-11
